

# Alexander Shulgin presents an event showcasing how Blockchain technology can be used in the future of sport

Blockchain is a unique opportunity: there is no single sector of the economy, or even any part of our lives, where this technology could not positively influence, transform, and change for the better.

The [SHULGIN 2.0.3.5 Events](#) have a strict focus on one of the sectors of the economy or a component of our lifestyle. The Events are held in different countries, bringing together expert opinions from the chosen sector.

The upcoming [Future of Sports](#) [LINK] event will address the topic of how blockchain technology can transform the sports industry. The target audience will focus on CEOs of this sector, business owners, investors, representatives of financial institutions and media representatives.

Organiser Alexander Shulgin is a repeatedly awarded Siberian composer, author of more than fifty hits who successfully combines creativity with business. He runs [GRUPPA KOMPANIY FAMILIA](#), which specializes in investments in the Blockchain, new media, publishing and entertainment industries.

Alexander is one of the world's leading experts in the digital transformation, creative economy, Blockchain technology and MES (Media, Entertainment and Sports) sectors. He is an investor in many leading companies in this industry, such as Bitfury and DotBlockchainMedia.

Alexander was a member of the Expert Council under the Chairman of the Government of the Russian Federation for IT and digital economy, and was awarded the Order for Professionalism and Business Reputation.”

Speakers from past SHULGIN 2.0.3.5 events include:

- Jerry Inzerillo - Head of Forbes Travel Guide
- Gleb Yun Senior Vice President "Vnesheconombank". Founder of Blockchain Commune
- Peter Browne, Vice President of the European Business Angels Association
- Emilio Eva - Initiator of the Space Science Center in Guatemala
- Sergey Zhukov - Russian political and public figure, test cosmonaut, entrepreneur. President of the Moscow Space Club, leader of the working group Aeronet of the National Technological Initiative, member of the Russian Writers' Union.
- Sam Lee / Founder and CEO of Blockchain Global Limited
- Laurent Bruchez / CEO of Diginex
- Sam Chi (legendary producer of Oldboy, President and CEO of Landmark Asia).
- Gabriel Delgado (investor, founder of the Haven Capital Foundation and head of the Free Economic Zones in Central and Latin America)

At the events it was considered how the latest Blockchain technology will influence the sector under discussion. What innovations will bring, what improvements will follow.

One of the featured speakers will be Jimmy Nguyen, Founding President of [Bitcoin Association](#) – the global industry organization which backs [Bitcoin Satoshi Vision \(BSV\)](#). The Bitcoin SV blockchain has seen application development explode globally as developers and businesses make use of BSV's greater scaling, data and micropayments capacities. Growing usage has led BSV's network transactions and average block size block counts to [regularly surpass BTC](#) and even surpass the Ethereum network on

some days. **Why?** As Mr. Nguyen will explain, BSV is the only project that adheres to Satoshi Nakamoto's original protocol, design and vision for Bitcoin to become a peer-to-peer electronic cash system and global data ledger for enterprise. Bitcoin SV is therefore a strong choice for sports organizations and businesses to use for their blockchain projects. A supporter of BSV, Alexander Shulgin serves as Bitcoin Association's ambassador for Russia, the CIS region & Russian speaking communities.
